

Restriction Requirement

Claim 41 was inadvertently left un-amended in the previous amendment. Claim 41 has now been amended to delete those compounds in which Cy is not a pyridine ring, and thus all compounds fall within Group I.

Conclusion

It is believed that Claims 1, 4, 6, 7, 11, 41 and 43 are in condition for allowance. The Examiner is encouraged to contact Applicants' undersigned representative if she has any questions regarding the above.

Respectfully submitted,

David S. Bradin
